Re: Be Well Informed, e-Enterprise Portal – Production release approval

Ms. Letson,

Wyoming Department of Environmental Quality (WyDEQ) has been in test for a few weeks with the e-enterprise shared service, Be Well Informed. WyDEQ is ready to move their files and service to production under, <https://e-enterprise.gov>.

The move to production will coincide with WyDEQ's Know Your Well day where we host a marketing campaign with flyers and website content.

WyDEQ is committed to keeping the XML files that provides the public with specific information pertaining to Wyoming up to date with information, web links and related content.

I recommend moving to production with Wyoming's information on Be Well Informed on the e-enterprise.gov public web site.

Sincerely,

Todd Parfitt

Director
